

Fabio Aurelio D'Asaro

Assistant Professor in Logic (PHIL-02/A)

fabioaurelio.dasaro@univr.it | +39 347 300 1762 | website | Scholar | GitHub

Researcher in Logic (PHIL-02/A) working in Logic and AI: epistemic, probabilistic and temporal reasoning, argumentation, and logic programming (ASP/ILASP). Teaching and supervision span Logic and Philosophy of Science, AI, theoretical and applied Computer Science, Epistemology of Big Data, and Logic Programming.

EXPERIENCE

Assistant Professor, University of Verona

2026 – present

Verona, Italy

Research and teaching on uncertain and epistemic reasoning, temporal and probabilistic logics, logic programming, reasoning about actions and change, bounded reasoning, and formal argumentation for (explainable) AI.

Honorary Lecturer, University College London (UCL)

2025 – present

London, UK

Department of Information Studies, Faculty of Arts and Humanities. Continuing collaboration on explainable AI and the Event Calculus (KIDS group). Email: fabio.dasaro.14@ucl.ac.uk — profiles.ucl.ac.uk/46877-fabio-d'asaro

Postdoctoral Researcher, University of Salento

2025 – 2026

Lecce, Italy

Department of Human Studies (PHIL-02/A). Project FAIR — Future AI Research (PE00000013), NRRP/MUR, NextGenerationEU, Spoke 6 ("Symbiotic AI"), PI: Paolo Baldi.

Assistant Professor, University of Verona

2022 – 2025

Verona, Italy

Research and teaching on uncertain and epistemic reasoning, temporal and probabilistic logics, logic programming, reasoning about actions and change, bounded reasoning, and formal argumentation for (explainable) AI. Partially funded by PON R&I 2014-2020, DM 1062/2021 (Action IV.4); UniVR code 2021rtdaPON03; CUP B39J21025840001; 12-month secondment at REVO.

Postdoctoral Researcher, Logic Group, University of Milan

2020 – 2021

Milan, Italy

Uncertain, depth-bounded and epistemic logics.

Postdoctoral Researcher, CRDC Tecnologie (University of Naples Federico II) 2019 – 2020

Naples, Italy

AVATEA Project (AI to support rehabilitation of children with neuro-motor disorders); explainable AI for robotics and preference learning.

Research Assistant, University of Palermo

2013 – 2014

Palermo, Italy

NEVERLOST Project (PO-FESR 2007-2013): (sub)optimal antenna displacement in arbitrary 2D spaces via soft-computing (fuzzy logic, genetic algorithms); educational "serious game" for theoretical CS.

Undergraduate Intern, ICAR-CNR Palermo

Jun – Sep 2011

Palermo, Italy

IMPULSO project: a path-visualization tool using the Google Maps APIs.

EDUCATION

PhD in Artificial Intelligence

2014 – 2019

University College London (UCL), London, UK

Thesis: "Probabilistic Epistemic Reasoning About Actions" (supervisors: Rob Miller, Antonis Bikakis, Luke Dickens). Modelling uncertainty and knowledge-producing actions in the Event Calculus. Excerpts published in Artificial Intelligence (AIJ) and LPNMR.

MSc in Pure Mathematics and Mathematical Logic

2013 – 2014

University of Manchester, Manchester, UK

Distinction ($\approx 110/110$ cum laude). Dissertation: "Analogical Reasoning in Unary Inductive Logic" (supervisor: Jeff B. Paris).

BSc in Computer Science

2006 – 2011

University of Palermo, Palermo, Italy

110/110 cum laude. Dissertation on the Church-Turing thesis and new models of computation (supervisor: Settimio Termini).

HONOURS

- MSc with Distinction ($\approx 110/110$ cum laude) — University of Manchester, 2014
- BSc summa cum laude (110/110 e lode) — University of Palermo, 2011

PUBLICATIONS

Google Scholar, 19 Jun 2026: 281 citations, h -index 10, $i10$ -index 13.

TEACHING

Lecturer, University of Verona

2022 – present

- Logic and Philosophy of Science (M-FIL/02), BA in Philosophy
- Epistemology of Big Data (M-FIL/02), MSc in Data Analytics
- Computational Epistemology (M-FIL/02), MSc in Artificial Intelligence
- Logic and Philosophy of Science in Physiotherapy (M-FIL/02), BSc
- Lab of Computer Science and Multimedia Technologies (INF/01), BA in Philosophy
- Lab of Artificial Intelligence and Neuroscience, PhD in Human Sciences
- Logic Learning (Logic-Based Learning), PhD in Computer Science

Lecturer, 8th Winter School in Linguistics (Verona / Free Univ. of Bolzano) 2025

- Introduction to Machine Learning (1.5h)

Lecturer, 3rd & 4th Summer School on Bayesian Statistical Analysis (Verona) 2023, 2025

- Introduction to Bayesian Probability (3h)

Lecturer, IECS Doctoral School, University of Trento 2023

- Logic Programming and Explainable AI (20h intensive, PhD)

Guest Lecturer, University of Milan (Dept. of Philosophy) 2021

- Topics in Logic, Probability and Computation (PhD; with H. Hosni, P. Baldi)
- Trends in Machine Learning (MSc, in H. Hosni's Probability Logic)

Teaching Assistant, University College London 2015 – 2023

- INST0074 Machine Reasoning for AI (module lead on Formal Argumentation, 2022/23)
- INST0060 Foundations of Machine Learning and Data Science
- INST0019 Introduction to Programming and Scripting; INST0029; INST0004

Teaching Assistant, University of Palermo 2013 – 2014

- Theoretical Computer Science (lab demonstrator)

INVITED TALKS

- Jun 2026 — Invited talk, PACMAN 2026 (Proof, Argumentation, Computation, Modalities and Negation), University of Verona
- May 2025 — Learning Argumentation Semantics, PACMAN 2025, Roma Tre University
- Mar 2024 — Logic programming for Explainable AI, PACMAN 2024, University of Verona
- Sep 2023 — "Are Turing Machines Predictable Entities?", symposium on Turing's Imitation Game (with R. Gaudenzi, G. Longo, T. Numerico), SILFS 2023, University of Urbino
- Jun 2023 — Explainable AI applications of ILP, University of Salento
- Apr 2023 — Explainable AI applications of ILP, University of Lugano
- Mar 2022 — Probabilistic epistemic reasoning about actions, UCL, UK
- Dec 2021 — Explaining black-boxes using ILASP, University of Trieste
- Aug 2021 — "Probabilistic Reasoning About Epistemic Action Narratives", IJCAI 2021
- Apr 2021 — Invited demo, Lorentz Center Workshop on Explainable Medical AI
- Jun 2020 — Explaining black-boxes using ILASP, SPIKE Group, Imperial College London

PROJECTS

FAIR (PNRR) Mar 2025 – Feb 2026

Logic for ethical human-AI collaboration (eDefAI, "Symbiotic AI"). PE00000013, Spoke 6, CUP H97G22000210007.

REVO (PON) 2022 – 2024

Researcher (Verona side, partially funded): AI methods to support insurance-policy sales — handwriting recognition, entity matching, and eligibility pre-screening. Ministerial PON R&I funding (DM 1062/2021); 12-month industrial secondment at the partner company, REVO Insurance.

BRIO (PRIN) 2022 – 2025

Proponent / collaborator (Milan; then external, EThOS Verona). Formal frameworks for trust and bias. PRIN 2020, 2020SSKZ7R_001 (ERC SH4).

AVATEA (POR) 2018 – 2019

Runtime epistemic probabilistic Event Calculus for sensor fusion in rehabilitation serious games. POR Campania FESR 2014-2020, CUP B13D18000130007.

SOFTWARE

- **PEC** — Probabilistic Event Calculus — reference implementation.
- **k-lingo** — Depth-bounded (k-depth) version of the ASP solver clingo (KR 2021).
- **WABA Playground** — In-browser Weighted Assumption-Based Argumentation (clingo-wasm).

- **ArgLAS** — Learning ASP encodings of argumentation semantics with ILASP.
- **tptnd-lean** — Typed natural deduction in Lean 4 — machine-checked fairness certificates.
- **LogicBenchmarkQuestions** — Dataset of logic puzzles to benchmark LLM reasoning.

SUPERVISION AND MENTORING

- Zlatina Mileva (Imperial College London) — Outstanding Project Award; preprint on learning argumentation semantics
- Daniele Fossemò & Marco D'Aviero (L'Aquila) — ILP for XAI; open dataset and BEWARE-22 paper
- Veronica Zenatelli (Verona) — BA thesis on LLMs and the Frame Problem; benchmark dataset
- Sara Sangiovanni (Napoli Federico II) — HRI pipeline for automated test administration; ICSR 2020
- Gennaro Daniele Acciario (Napoli Federico II) — intent recognition with ProbLog/Event Calculus; WOA 2021
- Luca Raggioli (Napoli Federico II) — deep RL for human-aware approaching; IJSR 2023
- Francesco Pedrazzoli (Verona, PhD) — ethics of recommender systems; CEPE-23

PROFESSIONAL SERVICE

- Co-organizer, eDefAI — 3rd Logic for the AI Spring Summer School, Lecce, 2025
- Workshop Chair / co-organiser, BEWARE workshops (Bias, Ethical AI, Explainability, Logic), AIXIA, 2022–2024 and 2026
- Workshop Proceedings Chair, WSDM 2026 (ACM)
- Program Committee, IJCAI 2020, 2024 and 2025
- Program Committee, KR 2022, 2023, 2024 and 2025
- Program Committee, ECAI 2023
- Program Committee, WEB&GRAPH 2026
- Co-organizer, EThOS seminar series, since 2022
- Workshop Chair, 1st ME&E (Machine Ethics and Explainability), ICLP 2021
- Workshop Chair, 5th AI³ (Advances in Argumentation in AI), AIXIA 2021
- Co-organizer, LUCI Lab seminars (Milan, Philosophy), 2020/2021
- Review Editor, editorial boards of Frontiers in AI, Frontiers in Big Data, Frontiers in AI in Neurology
- Dissemination: regular columns on the BRIO project in The Reasoner, 2022-2024
- Public engagement: webinar "Insegnare filosofia nell'era dell'IA" (with M. Badino), "Didattica digitale della Filosofia" series, 2025

REVIEWING

- Journals: IJAR (2025), Journal of Logic and Computation (NETREASON SI), AMAI (Commonsense SI), J. Hydrologic Engineering
- Conferences: KR (2022-2025), IJCAI (2016-2019, 2024, 2025), ECAI 2023, AAI-18, ICLP-17, ICSR-2020, SMC-19, WOA-19

RESEARCH GROUPS

- EThOS — Ethics and Technologies Of the Self, University of Verona
- LUCI — Logic, Uncertainty, Computation and Information, University of Milan
- SPIKE — Imperial College London
- KIDS — Knowledge, Information and Data Science, UCL

MEMBERSHIPS

- AILA — Associazione Italiana di Logica e sue Applicazioni
- SILFS — Società Italiana di Logica e Filosofia delle Scienze
- AIXIA — Associazione Italiana per l'Intelligenza Artificiale
- GULP — Gruppo ricercatori e Utenti di Programmazione Logica

- AISC — Associazione Italiana di Scienze Cognitive
- SISS — Società Italiana di Storia della Scienza

SKILLS

- **Logic programming:** ASP/clingo, Prolog/ProbLog, ILASP/FastLAS
- **Programming:** Python, Java, JavaScript/TypeScript, PHP, SQL, HTML/CSS; C, MATLAB; Lisp-family, Anglican

LANGUAGES

Italian — native • English — full professional proficiency
